## About Us

Conmach Solution has recently started its business venture in 2022 under the proprietorship of Mr. Mohammed Sajin. Our company is a one stop destination to avail all kinds of construction machinery such as Industrial Vacuum Lifting Device, Concrete Barrier Lifting Clamp, Industrial Kerb Stone Laying Clamp, Vacuum Laying Device, Industrial Block Cutting Machines, etc. All these world-class construction machines are sourced directly from the producers and supplied all across the world. Along with the products, our firm is engaged in providing excellent Forklift Rental Services to the customers at genuine prices.

By providing top-class products & solutions to the customers, we are able to carve a niche as a noted exporter, trader, supplier and service provider in India as well as international markets. To become a leading name in the industry; is the prime objective of the company. For achieving this objective, we are trying hard and putting our best efforts in all the undertaken projects. From associating with the leading manufacturing brands to delivering products within the promised time duration; we are putting our best foot forward. We are following ethical business practices and maintaining complete transparency in the professional dealings. It helps us in winning the faith of the clients.
